

ORDINANCE NO. 79

AN ORDINANCE OF THE TOWNSHIP OF PAINT, SOMERSET COUNTY, PENNSYLVANIA, REQUIRING ALL PERSONS, PARTNERSHIPS, BUSINESSES AND CORPORATIONS TO OBTAIN A BUILDING PERMIT FOR ANY CONSTRUCTION OR DEVELOPMENT; PROVIDING FOR THE ISSUANCE OF SUCH BUILDING PERMITS AND FIXING FEES THEREFOR; SETTING FORTH CERTAIN MINIMUM REQUIREMENTS FOR NEW CONSTRUCTION AND DEVELOPMENT WITHIN AREAS OF THE TOWNSHIP WHICH ARE SUBJECT TO FLOODING; AND ESTABLISHING PENALTIES FOR ANY PERSONS WHO FAIL OR REFUSE TO COMPLY WITH THE REQUIREMENTS OR PROVISIONS OF THIS ORDINANCE.

BE IT ENACTED and ORDAINED by the Township of Paint, Somerset County, Pennsylvania, and it is hereby enacted and ordained by the authority of the same as follows:

ARTICLE I - GENERAL PROVISIONS

Section 1.00 - Intent

The intent of this ordinance is to:

- A. Promote the general health, welfare and safety of the community.
- B. Encourage the utilization of appropriate construction practices in order to prevent or minimize flood damage in the future.
- C. Minimize danger to public health by protecting water supply and natural drainage.
- D. Reduce financial burdens imposed on the community, its governmental units, and its residents, by preventing excessive development in areas subject to flooding.
- E. Comply with federal and state floodplain management requirements.

Section 1.01 - Applicability

- A. It shall be unlawful for any person, partnership, business or corporation to undertake, or cause to be undertaken, any construction or development anywhere within the Township unless a building permit has been obtained from the Building Permit Officer.
- B. A building permit shall not be required for minor repairs to existing buildings or structures.

Section 1.02 - Abrogation and Greater Restrictions

This ordinance supersedes any other conflicting provisions which may be in effect in identified floodplain areas. However, any other ordinance provisions shall remain in full force and effect to the extent that those provisions are more restrictive. If there is any conflict between any of the provisions of this ordinance, the more restrictive shall apply.

Section 1.03 - Severability

If any section, subsection, paragraph, sentence, clause or phrase of this ordinance shall be declared invalid for any reason whatsoever, such decision shall not affect the remaining portions of this ordinance, which shall remain in full force and effect, and for this purpose the provisions of this ordinance are hereby declared to be severable.

Section 1.04 - Warning and Disclaimer of Liability

The degree of flood protection sought by the provisions of this ordinance is considered reasonable for regulatory purposes and is based on acceptable engineering methods of study. Larger floods may occur. Flood heights may be increased by man-made or natural causes, such as ice jams and bridge openings restricted by debris. This ordinance does not imply that areas outside any identified floodplain area, or that land uses permitted within such areas will be free from flooding or flood damages.

This ordinance shall not create liability on the part of the Township or any officer or employee thereof for any flood damages that result from reliance on this ordinance or any administrative decision lawfully made thereunder.

* ARTICLE II - ADMINISTRATION

111
* Section 2.00 - Building Permits Required

Building permits shall be required before any construction or development is undertaken within any area of the Township.

* Section 2.01 - Issuance of Building Permit

A. The Building Permit Officer shall issue a building permit only after it has been determined that the proposed work to be undertaken will be in conformance with the requirements of this and all other applicable codes and ordinances.

- B. Prior to the issuance of any building permit, the Building Permit Officer shall review the application for permit to determine if all other necessary government permits required by State and Federal laws have been obtained, such as those required by the Pennsylvania Sewage Facilities Act (Act 1966-537, as amended); the Pennsylvania Dam Safety and Encroachments Act (Act 1978-325, as amended); the Pennsylvania Clean Streams Act (Act 1937-394, as amended); the U.S. Clean Water Act, Section 404, 33 U.S.C. 1344. No permit shall be issued until this determination has been made.
- C. No encroachment, alteration or improvement of any kind shall be made to any watercourse until all adjacent municipalities which may be affected by such action have been notified by the Township and until all required permits or approvals have been first obtained from the Department of Environmental Resources, Bureau of Dams and Waterway Management.

In addition, the Federal Insurance Administrator and the Pennsylvania Department of Community Affairs, Bureau of Community Planning, shall be notified by the Township prior to any alteration or relocation of any watercourse.

All X

Section 2.02 - Application Procedures and Requirements

- A. Application for such a building permit shall be made, in writing, to the Building Permit Officer on forms supplied by the Township. Such application shall contain the following:
1. Name and address of applicant.
 2. Name and address of owner of land on which proposed construction is to occur.
 3. Name and address of contractor.
 4. Site location.
 5. Listing of other permits required and status of applications therefor. Applicant will have to furnish proof that all other permits have been acquired before a building permit will be issued by the Township.
 6. Brief description of proposed work and estimated cost.
 7. A plan of the site showing the exact size and location of the proposed construction as well as any existing buildings or structures.

All Folders only

X B. If any proposed construction or development is located entirely or partially within any identified Floodplain area, applicants for building permits shall provide all the necessary information in sufficient detail and clarity to enable the Building Permit Officer to determine that:

- (a) All such proposals are consistent with the need to minimize flood damage and conform with the requirements of this and all other applicable codes and ordinances;
- (b) all utilities and facilities, such as sewer, gas, electrical and water systems are located and constructed to minimize or eliminate flood damage; and,
- (c) adequate drainage is provided so as to reduce exposure to flood hazards.

Applicants shall file the following minimum information plus any other pertinent information (e.g., any or all of the technical information otherwise required under any provision of this ordinance) as may be required by the Building Permit Officer to make the above determination:

1. A completed building permit application form.
2. A plan of the entire site, clearly and legibly drawn at a scale of one (1) inch being equal to one hundred (100) feet or less, showing the following:
 - (a) North arrow, scale and date;
 - (b) topographic contour lines, if available;
 - (c) all property and lot lines, including dimensions, and the size of the site expressed in acres or square feet;
 - (d) the location of all existing and proposed buildings, structures and other improvements, including the location of any existing or proposed subdivision and land development;
 - (e) the location of all existing streets, drives and other accessways; and,
 - (f) the location of any existing bodies of water or watercourses, identified floodplain areas, and, if available, information pertaining to the floodway and the flow of water, including direction and velocities.

All Flood

3. Plans of all proposed buildings, structures and other improvements, drawn at suitable scale showing the following:

- (a) The proposed lowest floor elevation of any proposed building based upon National Geodetic Vertical Datum of 1929;
- (b) the elevation of the one hundred (100) year flood;
- (c) if available, information concerning flood depths, pressures, velocities, impact and uplift forces and other factors associated with a one hundred (100) year flood; and,
- (d) detailed information concerning any proposed floodproofing measures.

4. The following data and documentation:

- (a) A document, certified by a registered professional engineer or architect, which states that the proposed construction or development has been adequately designed to withstand the one hundred (100) year flood elevations, pressures, velocities, impact and uplift forces associated with the one hundred (100) year flood.

Such statement shall include a description of the type and extent of floodproofing measures which have been incorporated into the design of the structure and/or the development.

- (b) Detailed information needed to determine compliance with Section 4.01 F., Storage, and Section 4.02, Development Which May Endanger Human Life, including:
 - (i) The amount, location and purpose of any dangerous materials or substances which are intended to be used, produced, stored or otherwise maintained on site; and,
 - (ii) a description of the safeguards incorporated into the design of the proposed structure to prevent leaks or spills of the dangerous materials or substances listed in Section 4.02 during a one hundred (100) year flood.

- (c) The appropriate component of the Department of Environmental Resources' "Planning Module for Land Development".
- (d) Where any excavation or grading is proposed, a plan meeting the requirements of the Department of Environmental Resources, to implement and maintain erosion and sedimentation control.

All Plans

Section 2.03 - Review by County Conservation District

A copy of all applications and plans for any proposed construction or development in any identified floodplain area to be considered for approval shall be submitted by the Building Permit Officer to the County Conservation District for review and comment prior to the issuance of a building permit. The recommendations of the Conservation District shall be considered by the Building Permit Officer for possible incorporation into the proposed plan.

Flood

Section 2.04 - Review of Application by Others

A copy of all plans and applications for any proposed construction or development in any identified floodplain area to be considered for approval may be submitted by the Building Permit Officer to any other appropriate agencies and/or individuals (e.g., planning commission, municipal engineer, etc.) for review and comment.

Section 2.05 - Charges

All B. Permits

After the issuance of a building permit by the Building Permit Officer, no changes of any kind shall be made to the application, permit or any of the plans, specifications or other documents submitted with the application without the written consent or approval of the Building Permit Officer. Requests for any such change shall be in writing and shall be submitted by the applicant to the Building Permit Officer for consideration.

Section 2.06 - Placards

A. B. Permit

In addition to the building permit, the Building Permit Officer shall issue a placard which shall be displayed on the premises during the time construction is in progress. This placard shall show the number of the building permit, the date of its issuance and be signed by the Building Permit Officer.

A11

Section 2.07 - Start of Construction

Work on the proposed construction and/or development shall begin within six (6) months and shall be completed within eighteen (18) months after the date of issuance of the building permit or the permit shall expire unless a time extension is granted, in writing, by the Building Permit Officer. Construction and/or development shall be considered to have started with the preparation of land, land clearing, grading, filling, excavation for basement, footings, piers or foundations, erection of temporary forms, the installation of piling under proposed subsurface footings or the installation of sewer, gas and water pipes or electrical or other service lines from the street.

Time extensions shall be granted only if a written request is submitted by the applicant, which sets forth sufficient and reasonable cause for the Building Permit Officer to approve such a request.

A11

Section 2.08 - Inspection and Revocation

- A. During the construction period, the Building Permit Officer or other authorized official shall inspect the premises to determine that the work is progressing in compliance with the information provided on the permit application and with all applicable Township laws and ordinances. He shall make as many inspections during and upon completion of the work as are necessary.
- B. In the discharge of his duties, the Building Permit Officer shall have the authority to enter any building, structure, premises or development in the identified flood-prone area, upon presentation of proper credentials, at any reasonable hour to enforce the provisions of this ordinance.
- C. In the event the Building Permit Officer discovers that the work does not comply with the permit application or any applicable laws and ordinances, or that there has been a false statement or misrepresentation by any applicant, the Building Permit Officer may revoke the building permit and shall report such fact to the Board of Township Supervisors (hereinafter "Board") for whatever action it considers necessary, including revocation of the permit if not revoked by the Building Permit Officer.
- D. A record of all such inspections and violations of this ordinance shall be maintained.

A11

Section 2.09 - Fees

Applications for a building permit shall be accompanied by a fee, payable to the Township, based upon the estimated cost of the proposed construction as determined by the Building Permit Officer at the following rates:

<u>Estimated Cost</u>	<u>Fee</u>
\$ 0.00 to \$200.00	\$0.00
201.00 to \$1,000.00	5.00
Each additional \$1,000.00 or part thereof beyond the first \$1,000.00	1.00

Section 2.10 - Enforcement *111*

A. Notices

Whenever the Building Permit Officer or other authorized municipal representative determines that there are reasonable grounds to believe that there has been a violation of any provisions of this ordinance, or of any regulation adopted pursuant thereto, the Building Permit Officer shall give notice of such alleged violation as hereinafter provided. Such notice shall (a) be in writing; (b) include a statement of the reasons for its issuance; (c) allow a reasonable time not to exceed a period of thirty (30) days for the performance of any act it requires; (d) be served upon the property owner or his agent as the case may require, personally, by leaving a copy at the premises involved, by certified mail, return receipt requested, or by any other method authorized by the laws of this State; (e) contain an outline of remedial action which, if taken, will effect compliance with the provisions of this ordinance. Such notice shall be deemed given when delivered personally or to the premises, or, if mailed, three (3) days after the date of mailing, or earlier if a return receipt card indicates earlier receipt.

B. Penalties

Any person who fails to comply with any or all of the requirements or provisions of this ordinance or who fails or refuses to comply with any notice, order or direction of the Building Permit Officer or any other authorized employee of the municipality shall be guilty of an offense and, upon conviction, shall pay a fine to the Township of not less than Twenty-five Dollars (\$25.00), nor more than Three Hundred Dollars (\$300.00), plus costs of prosecution. In default of such payment, such person shall be imprisoned in county prison for a period not to exceed ten (10) days. Each day during which any violation of this ordinance continues shall constitute a separate offense. In addition to the above penalties, all other actions are hereby reserved, including an action in equity for the proper enforcement of this ordinance. The imposition of a fine or penalty for any violation of, or noncompliance with, this ordinance shall not excuse the violation or noncompliance or permit it to continue and all such persons shall be required to correct or remedy such violations and noncompliances within a reasonable time. Any development initiated or any structure or

building constructed, reconstructed, enlarged, altered or relocated in noncompliance with this ordinance may be declared by the Board to be a public nuisance and abatable as such.

Section 2.11 - Appeals *///*

- A. Any person aggrieved by an action or decision of the Building Permit Officer concerning the administration of the provisions of this ordinance may appeal to the Board. Such appeal must be filed, in writing, within thirty (30) days after the decision or action of the Building Permit Officer.
- B. Upon receipt of such appeal, the Board shall set a time and place, within not less than ten (10) nor more than thirty (30) days, for the purpose of considering the appeal. Notice of the time and place at which the appeal will be considered shall be given to all parties.
- C. Any person aggrieved by any decision of the Board may seek relief therefrom by appeal to court, as provided by the laws of this Commonwealth, including The Pennsylvania Flood Plain Management Act.

ARTICLE III - IDENTIFICATION OF FLOODPLAIN AREAS

Section 3.00 - Identification *Flood*

The identified floodplain area shall be any area of the Township of Paint, Somerset County, Pennsylvania, subject to the one hundred (100) year flood, which is identified as Zone A (Area of Special Flood Hazard) on the Flood Hazard Boundary Map (FHBM) dated August 15, 1980 (or the most recent revision thereof) as issued by the Federal Emergency Management Agency (FEMA), or on the most recent Flood Insurance Rate Map (FIRM) issued by FEMA, if such a map has been prepared for the Township.

Section 3.01 - Determination of the One Hundred (100) Year Flood Elevation

For the purposes of this ordinance, the one hundred (100) year flood elevation shall be used as the basis for regulation. When available, information from other Federal, State and other acceptable sources shall be used to determine the one hundred (100) year elevation, as well as a floodway area, if possible. When no other information is available, the one hundred (100) year elevation shall be determined by using a point on the boundary of the identified floodplain area which is nearest the construction site in question.

In lieu of the above, the municipality may require the applicant to determine the elevation with hydrologic and hydraulic engineering techniques. Hydrologic and hydraulic analyses shall be undertaken only

by professional engineers or others of demonstrated qualifications who shall certify that the technical methods used correctly reflect currently accepted technical concepts. Studies, analyses, computations, etc., shall be submitted in sufficient detail to allow a thorough technical review by the Township.

Section 3.02 - Changes in Identification of Area

The identified floodplain area may be revised or modified by the Board where studies or information provided by a qualified agency or person documents the need for such revision. However, prior to any such change, approval must be obtained from the Federal Insurance Administration (FIA).

Section 3.03 - Boundary Disputes

Should a dispute concerning any identified floodplain boundary arise, an initial determination shall be made by the Township Planning Commission and any party aggrieved by this decision may appeal to the Board. The burden of proof shall be on the appellant.

ARTICLE IV - GENERAL TECHNICAL REQUIREMENTS

Section 4.00 - General

Flood

- A. In the identified floodplain area, the development and/or use of any land shall be permitted provided that the development and/or use complies with the restrictions and requirements of this and all other applicable codes and ordinances in force in the municipality.
- B. Within any floodway area, no new construction or development shall be permitted that would cause any increase in the one hundred (100) year flood elevation.
- C. Within any identified floodplain area, no new construction or development shall be located within the area measured fifty (50) feet landward from the top-of-bank of any watercourse, unless a permit is obtained from the Department of Environmental Resources, Bureau of Dams and Waterway Management.
- D. Within any identified floodplain area, the elevation of the lowest floor (including basement) of any new or substantially improved residential structure shall be one and one-half (1-1/2) feet or more above the one hundred (100) year flood elevation.
- E. Within any identified floodplain area, the elevation of the lowest floor (including basement) of any new or substantially improved

non-residential structure shall be one and one-half (1-1/2) feet or more above the one hundred (100) year flood elevation or be floodproofed up to that height.

Any non-residential structure, or part thereof, having a lowest floor which is not elevated to at least one and one-half (1-1/2) feet above the one hundred (100) year flood elevation, shall be floodproofed in a completely or essentially dry manner in accordance with the W1 or W2 space classification standards contained in the publication entitled "Flood-Proofing Regulations" published by the U. S. Army Corps of Engineers (June 1972), or with some other equivalent standard. All plans and specifications for such floodproofing shall be accompanied by a statement certified by a registered professional engineer or architect which states that the proposed design and methods of construction are in conformance with the above-referenced standards.

- F. Within any identified floodplain area, fully enclosed spaces below the lowest floor of any new or substantially improved structure shall be prohibited.

Section 4.01 - Design and Construction Standards

The following minimum standards shall apply for all construction and development proposed within any identified floodplain area:

A. Fill

If fill is used, it shall:

1. Extend laterally at least fifteen (15) feet beyond the building line from all points;
2. Consist of soil or small rock materials only - sanitary landfills shall not be permitted;
3. Be compacted to provide the necessary permeability and resistance to erosion, scouring or settling;
4. Be no steeper than one (1) vertical to two (2) horizontal feet, unless substantiated data justifying steeper slopes are submitted to, and approved by, the Building Permit Officer; and,
5. Be used to the extent to which it does not adversely affect adjacent properties.

B. Drainage Facilities

Storm drainage facilities shall be designed to convey the flow of storm water runoff in a safe and efficient manner. The system

shall ensure proper drainage along streets and provide positive drainage away from buildings. The system shall also be designed to prevent the discharge of excess runoff onto adjacent properties.

C. Water and Sanitary Sewer Facilities and Systems

1. All new or replacement water and sanitary sewer facilities and systems shall be located, designed and constructed to minimize or eliminate flood damages and the infiltration of flood waters.
2. Sanitary sewer facilities and systems shall be designed to prevent the discharge of untreated sewage into flood waters.
3. No part of any on-site sewage system shall be located within any identified floodplain area, except in strict compliance with all State and local regulations for such systems. If any such system is permitted, it shall be located so as to avoid impairment to it, or contamination from it, during a flood.

D. Other Utilities

All other utilities such as gas lines, electrical and telephone systems shall be located, elevated (where possible) and constructed to minimize the chance of impairment during a flood.

E. Streets

The finished elevation of all new streets shall be no more than one (1) foot below the Regulatory Flood Elevation.

F. Storage

All materials that are buoyant, flammable, explosive or, in times of flooding, could be injurious to human, animal or plant life and not listed in Section 4.02, Development Which May Endanger Human Life, shall be stored at or above the Regulatory Flood Elevation and/or floodproofed to the maximum extent possible.

G. Placement of Buildings and Structures

All buildings and structures shall be designed, located and constructed so as to offer the minimum obstruction to the flow of water and shall be designed to have a minimum effect upon the flow and height of flood water.

H. Anchoring

1. All buildings and structures shall be firmly anchored in accordance with accepted engineering practices to prevent flotation, collapse or lateral movement.
2. All air ducts, large pipes, storage tanks and other similar objects or components located below the Regulatory Flood Elevation shall be securely anchored or affixed to prevent flotation.

I. Floors, Walls and Ceilings

1. Wood flooring used at or below the Regulatory Flood Elevation shall be installed to accommodate a lateral expansion of the flooring, perpendicular to the flooring grain without causing structural damage to the building.
2. Plywood used at or below the Regulatory Flood Elevation shall be of a "marine" or water-resistant variety.
3. Walls and ceilings at or below the Regulatory Flood Elevation shall be designed and constructed of materials that are water-resistant and will withstand inundation.
4. Windows, doors and other components at or below the Regulatory Flood Elevation shall be made of metal or other water-resistant material.

J. Paints and Adhesives

1. Paints or other finishes used at or below the Regulatory Flood Elevation shall be of "marine" or water-resistant quality.
2. Adhesives used at or below the Regulatory Flood Elevation shall be of a "marine" or water-resistant variety.
3. All wooden components (doors, trim, cabinets, etc.) shall be finished with a "marine" or water-resistant paint or other finishing material.

K. Electrical Components

1. Electrical distribution panels shall be at least three (3) feet above the one hundred (100) year flood elevation.
2. Separate electrical circuits shall serve lower levels and shall be dropped from above.

L. Equipment

Water heaters, furnaces, air conditioning and ventilating units and other mechanical or utility equipment or apparatus shall not be located below the Regulatory Flood Elevation.

M. Fuel Supply Systems

All gas and oil supply systems shall be designed to prevent the infiltration of flood waters into the system and discharges from the system into flood waters. Additional provisions shall be made for the drainage of these systems in the event that flood water infiltration occurs.

Section 4.02 - Development Which May Endanger Human Life

A. In accordance with the Pennsylvania Flood Plain Management Act and the regulations adopted by the Department of Community Affairs as required by the Act, any new or substantially improved structure which:

- will be used for the production or storage of any of the following dangerous materials or substances; or,

- will be used for any activity requiring the maintenance of a supply of more than 550 gallons, or other comparable volume, of any of the following dangerous materials or substances on the premises; or,

- will involve the production, storage or use of any amount of radioactive substances;

shall be subject to the provisions of this section, in addition to all other applicable provisions. The following list of materials and substances are considered dangerous to human life:

1. Acetone
2. Ammonia
3. Benzene
4. Calcium carbide
5. Carbon disulfide
6. Celluloid
7. Chlorine
8. Hydrochloric acid
9. Hydrocyanic acid
10. Magnesium
11. Nitric acid and oxides of nitrogen

12. Petroleum products (gasoline, fuel, oil, etc.)
 13. Phosphorus
 14. Potassium
 15. Sodium
 16. Sulphur and sulphur products
 17. Pesticides (including insecticides, fungicides and rodenticides)
 18. Radioactive substances, insofar as such substances are not otherwise regulated
- B. Within any identified floodplain area, any new or substantially improved structure of the kind described in Subsection A. above shall be prohibited within the area measured fifty (50) feet landward from the top-of-bank of any watercourse.
- C. Where permitted within any identified floodplain area, any new or substantially improved structure of the kind described in Subsection A. above shall be:
1. Elevated or designed and constructed to remain completely dry up to at least one and one-half (1-1/2) feet above the one hundred (100) year flood; and,
 2. Designed to prevent pollution from the structure or activity during the course of a one hundred (100) year flood.

Any such structure, or part thereof, that will be built below the Regulatory Flood Elevation shall be designed and constructed in accordance with the standards for completely dry floodproofing contained in the publication "Flood-Proofing Regulations" (U. S. Army Corps of Engineers, June 1972), or with some other equivalent watertight standard.

Section 4.03 - Special Requirements for Manufactured Homes

- A. Within any identified floodplain area, all manufactured homes and any additions thereto shall be prohibited within the area measured fifty (50) feet landward from the top-of-bank of any watercourse.
- B. Where permitted within any identified floodplain area, all manufactured homes and additions thereto shall be:
1. Placed on a permanent foundation;

2. Elevated so that the lowest floor of the manufactured home is one and one-half (1-1/2) feet or more above the elevation of the one hundred (100) year flood; and,
 3. Anchored to resist flotation, collapse, or lateral movement.
- C. An evacuation plan indicating alternate vehicular access and escape routes shall be filed with the appropriate Township officials for manufactured home parks.

ARTICLE V - ACTIVITIES PROHIBITED

Section 5.00 - General Flood

The following activities shall be prohibited within any identified floodplain area:

- A. The commencement of any of the following activities; or the construction, enlargement or expansion of any structure used, or intended to be used, for any of the following activities:
1. Hospitals
 2. Nursing homes
 3. Jails or prisons
- B. The commencement of, or any construction of, a new manufactured home park or manufactured home subdivision, or substantial improvement to an existing manufactured home park or manufactured home subdivision.

Flood ARTICLE VI - EXISTING STRUCTURES IN IDENTIFIED FLOODPLAIN AREAS

Section 6.00 - Existing Structures

The provisions of this ordinance do not require any changes or improvements to be made to lawfully existing structures. However, when an improvement is made to any existing structure, the provisions of Section 6.01 shall apply.

Flood

Section 6.01 - Improvements

The following provisions shall apply whenever any improvement is made to an existing structure located within any identified floodplain area:

- A. Any modification, alteration, reconstruction or improvement of any kind to an existing structure, to an extent or amount of fifty (50) percent or more of its market value, shall constitute a substantial improvement and shall be undertaken only in full compliance with the provisions of this ordinance.
- B. Any modification, alteration, reconstruction or improvement of any kind to an existing structure, to an extent or amount of less than fifty (50) percent of its market value, shall be elevated and/or floodproofed to the greatest extent possible.

ARTICLES VII - VARIANCES *Flood*

Section 7.00 - General

If compliance with any of the requirements of this ordinance would result in an exceptional hardship to a prospective builder, developer or landowner, the Township may, upon request, grant relief from the strict application of the requirements.

Section 7.01 - Variance Procedures and Conditions

Requests for variances shall be considered by the Township in accordance with the procedures contained in Section 2.11 and the following:

- A. Except for a possible modification of the one and one-half (1-1/2) foot freeboard requirement involved, no variance shall be granted for any of the other requirements pertaining specifically to Development Which May Endanger Human Life (Section 4.02). No variance shall be granted for any of the prohibited activities cited in Section 5.00.
- B. If granted, a variance shall involve only the least modification necessary to provide relief.
- C. In granting any variance, the Township shall attach whatever reasonable conditions and safeguards it considers necessary in order to protect the public health, safety and welfare and to achieve the objectives of this ordinance.
- D. Whenever a variance is granted, the Township shall notify the applicant in writing that:

1. The granting of the variance may result in increased premium rates for flood insurance.
 2. Such variances may increase the risks to life and property.
- E. In reviewing any request for a variance, the Township shall consider, at a minimum, the following:
1. That there is good and sufficient cause.
 2. That failure to grant the variance would result in exceptional hardship to the applicant.
 3. That the granting of the variance will (i) neither result in an unacceptable or prohibited increase in flood heights, additional threats to public safety or extraordinary public expense, (ii) nor create nuisances, cause fraud on or victimize the public or conflict with any other applicable state or local ordinances and regulations.
- F. A complete record of all variance requests and related actions shall be maintained by the Township. In addition, a report of all variances granted during the year shall be included in the annual report to the Federal Insurance Administration.
- G. No variance shall be granted for any construction, development, use, or activity within any floodway area that would cause any increase in the one hundred (100) year flood elevation.

Notwithstanding any of the above, however, all structures in floodplain areas shall be designed and constructed so as to have the capability of resisting the one hundred (100) year flood.

ARTICLE VIII - DEFINITIONS

Section 8.00 - General

Unless specifically defined below, words and phrases used in this ordinance shall be interpreted so as to give this ordinance its most reasonable application.

Section 8.01 - Specific Definitions

- A. **ACCESSORY USE or STRUCTURE** - a use or structure on the same lot with, and of a nature customarily incidental and subordinate to, the principal use or structure.

- B.1. BUILDING - a combination of materials to form a permanent structure having walls and a roof. Included shall be all manufactured homes and trailers to be used for human habitation.
- B.2. BOARD - the Board of Township Supervisors of this Township.
- C. CONSTRUCTION - the construction, reconstruction, renovation, repair, extension, expansion, alteration or relocation of a building or structure, including the placement of manufactured homes.
- D. DEVELOPMENT - any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, the placement of manufactured homes, streets and other paving, utilities, filling, grading, excavation, mining, dredging or drilling operations and the subdivision of land.
- E. FLOOD - a temporary inundation of normally dry land areas.
- F. FLOODPLAIN AREA - a relatively flat or low land area which is subject to partial or complete inundation from an adjoining or nearby stream, river or watercourse; and/or any area subject to the unusual and rapid accumulation of surface waters from any source.
- G. FLOODPROOFING - means any combination of structural and nonstructural additions, changes or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.
- H. MINOR REPAIR - the replacement of existing work with equivalent materials for the purpose of its routine maintenance and upkeep, but not including the cutting away of any wall, partition or portion thereof, the removal or cutting of any structural beam or bearing support, or the removal or change of any required means of egress, or rearrangement of parts of a structure affecting the exitway requirements; nor shall minor repairs include addition to, alteration of, replacement or relocation of any standpipe, water supply, sewer, drainage, drain leader, gas, soil, waste, vent or similar piping, electric wiring or mechanical or other work affecting public health or general safety.
- I. MANUFACTURED HOME - a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. The term includes park trailers, travel trailers, recreational and other similar vehicles placed on a site for more than 180 consecutive days.

- J. MANUFACTURED HOME PARK - a parcel (or contiguous parcels) of land which has been planned and improved for the placement of two or more manufactured homes.
- K. OBSTRUCTION - any wall, dam, wharf, embankment, levee, dike, pile abutment, projection, excavation, channel, rectification, culvert, building, fence, stockpile, refuse, fill, structure or matter in, along, across or projecting into any channel, watercourse or floodprone area, which may impede, retard or change the direction of the flow of water either in itself or by catching or collecting debris carried by such water or is placed where the flow of the water might carry the same downstream to the damage of life and property.
- L. ONE HUNDRED YEAR FLOOD - a flood that, on the average, is likely to occur once every one hundred (100) years (i.e., that has one (1) percent chance of occurring each year, although the flood may occur in any year).
- M. REGULATORY FLOOD ELEVATION - the one hundred (100) year flood elevation, plus a freeboard safety factor of one and one-half (1-1/2) feet.
- N. STRUCTURE - anything constructed or erected on the ground or attached to the ground, including but not limited to buildings, sheds, mobile homes and other similar items.
- O. SUBDIVISION - the division or redivision of a lot, tract or parcel of land by any means into two or more lots, tracts, parcels or other divisions of land, including changes in existing lot lines for the purpose, whether immediate or future, of lease, transfer of ownership or building or lot development; provided, however, that the subdivision by lease of land for agricultural purposes into parcels of more than ten (10) acres, not involving any new street or easement of access or residential dwellings, shall be exempted.
- P. SUBSTANTIAL IMPROVEMENT - any repair, reconstruction or improvement of a structure, the cost of which equals or exceeds fifty (50) percent of the market value of the structure either (a) before the improvement or repair is started, or (b) if the structure has been damaged and is being restored before the damage occurred.
- Q. FLOODWAY - the designated area of a floodplain required to carry and discharge floodwaters of a given magnitude. For the purposes of this ordinance, the floodway shall be capable of accommodating a flood of the one hundred (100) year magnitude.
- R. LOWEST FLOOR - means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood-resistant enclosure useable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor, provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of the National Flood Insurance Program.

ARTICLE IX - ADDITIONAL PROVISIONS

Section 9.00 - Ordinance Not a Taking

The Township, by enactment of this ordinance, intends to exercise its powers for the benefit of the health, safety and welfare of the residents of the Township to the maximum extent possible short of taking private property for public use such as would cause the Township to be liable to pay compensation under the laws or Constitutions of the Commonwealth of Pennsylvania or the United States of America. Accordingly, notwithstanding anything else set forth in this ordinance, this ordinance shall be interpreted so as to not be applied in such a manner as would cause the Township to be liable to pay just compensation under the laws or Constitutions of the Commonwealth of Pennsylvania or the United States of America. This ordinance shall, however, be interpreted as applying to the fullest extent legally permissible short of action giving rise to a claim for just compensation under the aforesaid laws and Constitutions in the full exercise of the Township's police and regulatory and legislative powers in support of the health, safety and welfare of the Township and its residents.

Section 9.01 - Repeals

The building permit ordinance of the Township adopted October 9, 1967, as heretofore amended, is repealed with respect to building permits which are covered by this ordinance, but said ordinance adopted October 9, 1967, shall be and remain in full force and effect with respect to sewage disposal system permits. All other ordinances or parts of ordinances inconsistent herewith are repealed to the extent of the inconsistency only. As provided in Section 1.02, a more restrictive provision of another ordinance shall prevail and shall not be deemed "inconsistent" with this ordinance.

Section 9.02 - Effective Date

This ordinance shall become effective five (5) days after adoption as provided by law.

ORDAINED and ENACTED this 21st day of March, 1988.

BOARD OF SUPERVISORS
Paint Township
Somerset County, Pennsylvania

Jeffrey A. Penwood
Richard C. Shaffer
James Statten

CERTIFICATION OF ADOPTION

The undersigned, Secretary of the Board of Supervisors of Paint Township, Somerset County, Pennsylvania, does hereby certify that the foregoing ordinance was duly adopted by a majority vote of the entire Board of Supervisors of Paint Township, at a duly advertised called and held public meeting of said Supervisors, which meeting was held at 3:30 o'clock P.M., prevailing time, on the 21st day of March, 1988, in the Township Municipal Building at Rear 400 Hayes Street, Windber, Pennsylvania, the Township's usual meeting place, in Paint Township, Somerset County, Pennsylvania.

CERTIFIED this 21st day of March, 1988.

Secretary
